BLIZZARD'S GRASP QUITE A SNOW STORM

Zero Weather and Worst Reported in Many Cities.

In North Dakota the Temperature Is 43 Degrees Below Zero—Snow in Chicago.

LATE NEWS BY TELEGRAPH

GRASP OF THE BLIZZARD.

Chicago, Feb. 16—Seven inches of snow fell here today and the blizzard has crippled the railroads in various parts of the country. In Wisconsin, the temperature dropped to 23 degrees below zero. At Omaha 10 degrees below is reported. The blizzard struck Kentucky causing much discomfort and annoyance.

INTERFERES WITH SCHEDULES.

Louisville, Feb. 16—The blizzard which struck Louisville, is playing havoc here with railroad schedules. A cold wave is due tonight.

OPENS HIS CAMPAIGN.

Louisville, Feb. 16—Hon. John K. Hendrick will formally open his campaign for governor in a speech at Georgetown this afternoon.

THE NEW CABINET OFFICER.

Washington, Feb. 16—The president today sent the senate the name of George B. Cortelyou, to be secretary of commerce and labor, the new cabinet officer.

NO SUNDAY BASEBALL.

Indianapolis, Feb. 16—The Indiana senate has killed the bill to permit Sunday baseball playing in that state.

COLDEST PLACE YET.

Chicago, Feb. 16—Williston, N.D., is now the coldest spot in the United States, the temperature there being 43 degrees below zero.

SNOW IN TEXAS.

Austin, Tex., Feb. 16—The snow in Northern Texas is a foot deep.

IS POSTPONED

CAMP FIRE WILL BE GIVEN THURSDAY NIGHT.

The "camp fire" which was to have been given by the Wheeler Guards at the armory building tonight, has been postponed until Thursday night, on account of the weather.

Captain James Caldwell arranged entertainment and had sent out a number of invitations to outsiders who will today be notified of the change of dates. It is the intention of Captain Caldwell to make this one of the most enjoyable events since the organization of the company here.

He intends to have a regular camp fire with camping outfits and cooking utensils such as are used in the army. All the food will be cooked as it is in the army and served on army plates. All the members of the company will be present and about 25 outsiders, the total attendance amounting to about 75.

Congressman Wheeler, in whose honor the affair is to be given, will doubtless respond to a toast.

Mr. Ernest E. Reid of Clinton was in the city yesterday.

The Real Article Came Down This Morning.

Street Car Service Brought to a Standstill by Rapidly Covered Rails.

ZERO WEATHER PREDICTED

Paducah is in the throes of the first real snowstorm of the season. Two days' steady rain last evening changed into sleet and later into snow.

This morning the snow has been falling rapidly on a frozen surface, with the prospect of having several inches, at least, before there is a cessation.

The street car service was practically suspended early in the morning, and later in the day was entirely stopped, as the snow fell faster than it could be removed from the tracks.

Since Saturday about three inches of rain fell, and very few people ventured out yesterday, and no more than could help today.

Last night the temperature began to fall rapidly, and by bedtime the ground was frozen, which gave the snow a hard surface on which to stick. There have been a few snows this season, but none to amount to anything except this one, which is quite heavy, but there seems to be a prospect for a let-up by morning, when zero weather is predicted for Kentucky.

Our coldest weather four years ago, it will be remembered, was about this time of the year, and those who imagined that spring was here during the pretty, balmy weather of last week have forgotten all about it today.

The temperature went to about 19 during the night, but today it has been some warmer.

Many sleighs have been out today, and this afternoon the street car company has been trying to start its cars again. At press time the snow seemed to be thinning out.

The telephone girls at the Cumberland exchange have been unusually busy today. Everybody kept in doors as much as possible and much business was transacted by phone. There were few lines not working today and the only long distance wire which refused to work was that between Paducah and Cairo and it will be repaired before night.

BADLY BURNED

Child's Clothing Caught Fire in the Grate Yesterday.

Injuries Are Not Believed to Be Fatal. However, By the Physician.

Rivers the seven year old daughter of a man named Gasket, who resides on Elizabeth street near Fifth, and works at the iron furnace, was standing near the grate yesterday when her clothing caught fire and badly burned her from the waist to the head before the flames could be extinguished.

Dr. Troutman was called and found the injuries serious but not necessarily fatal.

Mr. Thomas Glenn, of the South Side fire department, who resides near by, was coming out of his gate when the little girl ran out into the street screaming for help. Her mother was at the time in the street driving cattle and ran to her child's assistance. Mr. Glenn arrived and helped extinguish the flames but not until the little girl's back, hips and ears had been badly burned. The accident happened at 3:15 o'clock in the afternoon.

CHARGED WITH COAL STEALING—Anderson Ellis, colored, was arrested this morning in the I. C. yards for coal stealing. The arrest was made by Officer Dineen, special agent for the Louisville division of the I. C.

TWO ATTEMPTS.

BOTH FEMALES WERE SAVED, HOWEVER.

Annis Carroll, about 20 years old, took morphine at her home on Jones street near Eleventh Saturday night and came near dying before found. A love affair is supposed to have prompted the act. Drs. Robertson and Hoyer were called and she was soon out of danger.

Mag Treadwell, another young woman took ten grains of morphine at the Red Fox saloon Saturday night, but was also saved by the two doctors mentioned above.

CONDUCTOR HURT.

POPULAR MAN BROUGHT TO PADUCAH TODAY.

W. D. Thompson, the well known I. C. conductor, slipped up on the platform at Mayfield last night and dislocated a hip. He was taken from the train at that station and cared for until passenger train No. 104, east-bound, came by. On account of the washout he was not gotten to Paducah until 1 o'clock this afternoon. The hip was set at the railroad hospital this afternoon. Conductor Beadles took his train from Mayfield and finished the run.

OLD CITIZEN GONE A WASHOUT AT BOAZ

Capt. E. B. Davidson a Victim of Pneumonia.

Served With Distinction on the Union Side in the Twenty-First Kentucky.

FUNERAL THIS AFTERNOON

Captain E. B. Davidson, a veteran soldier and Knight of Honor, died Sunday morning at 10 o'clock at the ripe old age of 74 at his home on South Eighth street of pneumonia after an illness of several weeks.

The deceased was born in Richmond, Va., on November 28, 1829, and moved to Paris, Ky., in 1855. Several years later he removed to Louisville and while residing there during the Civil war enlisted as captain in the Twenty-first Infantry, in which capacity he served with credit for over four years.

He was a charter member of the Louisville lodge of Knights of Honor and was a leading worker in the local lodge up to the time of his death.

In 1874 Captain Davidson moved to McCracken county near Woodville and later moved to Hinkleville, Ballard county, from where he moved to Paducah in 1884. He engaged in the livery business here where the Terrell stables now are in the early part of his residence, but later took to the vocation of plastering contracting.

He leaves a wife and four sons, Messrs. Harry and Frank Davidson, of Louisville, and Check and Ed Davidson of Paducah. He leaves three daughters, Misses E. B. and Flora Davidson and Mrs. Cora Hargrove. Miss Flora Davidson is a teacher in the public schools here.

The funeral was held this afternoon at 2 o'clock under the auspices of the Knights of Honor, of which he was an officer at the time of death. Rev. G. W. Perryman of the First Baptist church officiated, burial at Oak Grove.

BASEBALL MATTERS

Regular Season Will Probably Open June 1st.

The Paducah Club Will Be Playing By May 1, However.

Matters pertaining to baseball are fast getting into shape here and within the next week the bids for the work on the grandstand and bleachers will be opened and the contract awarded.

The estimates have been completed by Architect Brainerd and placed in the hands of the contractors who are making out bids. Already several bids are known and the grand stand will be an expensive one, costing somewhere in the neighborhood of \$1,000. One improvement that will be put in, is a turnstile, which will register every man who goes into the park. In this way a perfect count of the attendance can be had. Paducah will be furnished the best quality of baseball sport and will no doubt respond with a liberal patronage.

As to the opening of the season, one member of the association said this morning: "We think that the league opening will be made about June 1 and maybe sooner, but the Paducah team will be playing by May 1. We intend to travel around and get in shape by playing inferior city teams."

MAX REGIS FIGHTS TWO DUELS

Paris, Feb. 16—Max Regis, the former mayor of Algiers and anti-Semite leader, took part in two duels and will figure in two more. The first was fought with swords, his adversary being M. La Basdaquerie. It grew out of a private controversy. In the second encounter pistols were used, and M. Regis exchanged shots with Jacques Landa. Newspaper criticisms were responsible for this quarrel.

No Illinois Central Trains Passed for Over 12 Hours.

Freight Train Strikes the Loose Rails and Has a Close Call—Fireman Hurt.

TRACK IS NOW REPAIRED

The Illinois Central railroad is experiencing more trouble from washouts and last night early had a bad one near Boaz Station on the Memphis division, between Paducah and Mayfield.

The first train to strike the washout was freight No. 189 and the engine of this train ran onto the unsteady rails before a derailment was caused and backed into a siding. The crew was brought to the city this morning on the engine to wait until the track has been repaired. The fireman on this train fell off the engine when the unsteady rails were struck, and floundered in several feet of water for several minutes before rescued.

The passenger service has been injured more than any other class of trains and two passenger trains were standing at Boaz for many hours this morning. Passenger No. 104 from Memphis to Louisville was unable to pass and also was No. 103, from Louisville to Memphis. The former is due here at 1:30 and the latter at 3:30. The morning accommodation train No. 124 was also delayed by the washout.

Passenger No. 122, due into Paducah at 7:40 did not arrive until 12:30 and was followed by trains Nos. 104 and 102 running about 20 minutes apart. The 104 was due at 1:30 this morning and No. 102 at 11:30. No. 104 was annulled east of Paducah and ran as the first section of No. 102 out of Paducah. The washout has been repaired so that trains can pass over it but is not permanently repaired and will not be before tomorrow. There are no other washouts reported on the Memphis or Louisville divisions of the Illinois Central.

Boaz is a bad place for washouts. During the last heavy rain, some time ago, there was over two miles of water on the tracks for more than a day, and did not subside for several days.

It is regarded as very fortunate that it was not one of the lightning passengers that struck the weak track, or there might have been more serious results.

CROWD SCOOTED

THE COLD WEATHER DID NOT MAKE ANY DIFFERENCE WITH THEM.

Sheriff Potter's office was a very pleasant place this morning, with its glowing fire and happy crowd—that is it was until a thoughtless man came in and announced that he had just been discharged as a smallpox patient, and was very glad to get out. So were the officers and their friends and they did it with all possible haste.

Justice Barber who occupies the rear office seeing that he was shut off from a front door exit by the presence of the man, started for the back door and saw Constable Patton come in the front door at the same time.

He made a motion to the constable to get the man out, but the constable, thinking that the justice was merely issuing papers he did not want the stranger to see, concluded that it would do as well to keep him in the front office, and he did so, entertaining him in the meantime.

When the stranger warmed and left, the situation was explained to the constable, who has since been investing in various kinds of disinfectants.

GALLATIN GOES DRY

WITH A WHOOP.

Gallatin, Tenn., Feb. 16—An election was held here Saturday for the purpose of deciding the whiskey question, in which the anti-saloon element won by a vote of 165 to 23. The above result was received with enthusiasm, all the town bells and whistles joining in the great applause.

Showing Age.

Some people begin to show age before the meridian of life is reached, or they have lived out half their days. They are prematurely gray, haggard and sickly, and seldom free from an ache or pain of some description.

Cold feet, chilly sensations, stiffness in muscles and joints, weak stomach and poor digestion, lack of energy, and drowsiness, nervousness, etc., show that old age has been reached ahead of time. Bad blood and weak circulation more often produce these miserable feelings and signs of decay than anything else. An inherited taint or poison of some description is at work in the system, causing stagnation and a general unhealthy condition of the blood; and this, and not the weight of years, is dragging you down to an untimely old age and making life a protracted torture.

For purifying the blood and toning up the circulation nothing is equal to S. S. S. It removes from the system all the waste matter that has been accumulating for years, and makes the blood rich and pure, stimulates the appetite and digestion, and invigorates the entire body.

S. S. S. is a purely vegetable remedy, and the best purifier and tonic for old people, and those who are beginning to show age because of the run down condition of the blood. With rich, pure blood there is no reason why old people should not retain the happy disposition and buoyant spirits of youth.

If you have a cancerous, Rheumatism, or any of the ailments common to old age, write us about it, and our Physicians will advise you without charge. Book on Blood and Skin Diseases free.

FIFTH ANNIVERSARY

Americans Commemorate Destruction of the Maine.

The Wreck Covered With Flowers—Impressive Services on Water Front.

THE CUBANS ASSISTED

Havana, Feb. 16.—Flags and flowers covered the nakedness of the Maine wreck in the harbor yesterday and a celebration of the fifth anniversary of the fearful tragedy of 1898 was held by the American residents.

In this they were joined cordially by the Cubans in Havana, President Palma having accepted an invitation to be present, while the entire Cuban government look part in the exercises arranged.

Every year since the Maine was sent to the bottom of Havana harbor the American residents in Havana have arranged some sort of a formal celebration. There was a procession through the streets early Sunday morning and memorial services in the Cathedral. In the afternoon a committee of American residents held more extended memorial services at the water front.

The old wreck was tastefully and appropriately draped with Cuban and American flags and covered with wreaths and garlands of tropical flowers. Every bit of rusty, twisted steel was hidden from sight.

The exercises conducted by the Americans at the water front consisted of memorial addresses and a prayer. The American national salute was fired from the guns in Morro.

The harbor was dotted with the quaint, half-covered boats which are the most familiar sight along the Havana water front.

Notwithstanding the many propositions to remove the wreck of the Maine it still lies in the exact spot on which it sank on the night of February 15, five years ago. A few bent and blistered fragments remain above the surface, although the body of the ship has been gradually sinking into the soft ooze of the harbor bed. The broken keel plate, that was of all other things the most damning evidence of an external explosion, still projects above the surface of the water, encrusted with seaweed and slime.

KENTUCKY WHISKEY

UNUSUALLY LARGE AMOUNT MADE IN JANUARY LAST.

The monthly report of Revenue Collector Craft, which is just out, shows that more whiskey was produced in the Fifth Kentucky district during the month of January than in any months for a number of years. The distilleries barreled and entered in bond 2,515,580 gallons of pure whiskey during the month, as against about 1,600,000 gallons for the month of December. This amount is more than double the amount of whiskey entered in bond during January of 1902.

The revenue collections on whiskey for the month amounted to \$73,278.64. On the basis of \$1.10 per gallon, this means that 793,889 gallons of the article were withdrawn from bond during the month, and indicates that the amount of whiskey in bond is accumulating rapidly.

"TWENTY YEARS AGO"

DEATH OF THE AUTHOR RECALLS FACTS OF ITS PUBLICATION.

Clinton, Ia., Feb. 16.—A. J. Gault died at his home in Wheatland, this county, aged 84 years. Mr. Gault was the author of the beautiful poem, "Twenty Years Ago," which he wrote as a letter to his brother Tom, referred to in the poem, when Gault was a young man in Vermont. The brother of Gault was a wayward boy and neglected to write to the folks at home. Finally A. J. Gault decided he might reach his brother's heart by writing a tender poem. He took for his subject the scenes of the schoolhouse where they spent their boyhood days, and "Twenty Years Ago" was the letter that went to the brother in Otsego, N. Y. Every incident was founded on facts. The grapevine swing, the trees on which their names were cut, the desks their jackknives had defaced, the trout in the stream, were exactly as described in the poem. The poem finally appeared in print, and soon was widely published and was printed in nearly every school reader. Its author at that time was unknown, and today, outside a small territory here, the author is still unknown. A sister residing in Kansas has the original manuscript. Gault was also the author of other poems of merit. However, his greatest effort was "Twenty Years Ago." For the past several years he has lived practically in obscurity.

A PECULIAR PEOPLE

ENGLISH ARMY OFFICER DISCOVERS A NEW PEOPLE.

London, Feb. 14.—Lieut. Boyd Alexander, who has just returned from the Island of Fernando Po, the island of Spain in the Bight of Biafra, Western Africa, gives an interesting description of the curious inhabitants of the practically previously unexplored interior of the island. These are known as "Bobbies." Few of them have ever seen a white man and they never leave their primitive dwellings in the rocks except on organized drinking bouts. The race is fast dying out from the effects of rum and palm wine. The natives are mostly naked, except for a curious star bonnet. They paint their bodies with colored mud, are unspeakably filthy, for they never wash, but occasionally use a knife to scrape off the surface dirt, and create artificial deformities by tightly wrapping their limbs. The Fernando Po natives are exceedingly timid, and when sighted by the whites bolted into the depths of the jungle, where they set up fearsome walls. At certain hours each day the villages are deserted, every one, including the children, going off on a carousal.

The lieutenant adds that although he searched for them diligently he could find no traces of the burial places of the natives of the island.

MONSTER LOCOMOTIVE.

CHICAGO AND ALTON ENGINE THE LARGEST EVER MADE.

The Chicago and Alton railroad has just received for use on the Kansas City through trains the largest passenger locomotive ever turned out by the Baldwin works and the largest in use on Western roads. As the western lines have larger engines than eastern roads this puts the new Alton locomotive at the head of the class of big passenger pullers.

The new locomotive's total weight is 219,500 pounds, of which 141,700 pounds is carried on the drivers. The drive wheels, six in number, are 73 and 80 inches in diameter. The boiler diameter is 70 inches and there are 325 tubes, 2 1/2 inches in diameter and 20 feet long. The firebox is 108 inches long and 72 1/2 inches wide, with a heating surface of 202 square feet. The total heating surface of fire box, fire box tubes and tubes is 407 square feet. The water tank has a capacity of 8400 gallons.

NOW A HAPPY FAMILY

Remarkable Change in the Cowan Household in a Few Days.

Kind Hearted People Have Supplied Them With Food, Clothes and Work.

CREDIT TO THE CHARITABLE

The charitable people of Paducah can certainly do things right when they make the attempt. When Frank Cowan killed Warren Woodward, a neighbor, eight miles above the city three weeks ago, and had to leave his wife and seven children, they were destitute, and in a country where they had no friends to whom to turn because of the horrible deed of father and husband.

For days they struggled along with little to eat and scarcely anything to wear except rags for clothing and socks for shoes. They were nearly frozen, and their emaciated bodies eloquently bespoke their suffering.

A crowd of Paducah officers who went up after the murderer found the family in its half starved condition, and gave them enough to satisfy their immediate wants, and when they returned to the city reported the matter to Chief Collins.

The result was that the latter sent up two men to bring the boat on which the family lived to Paducah, and it was floated down and moored in Island Creek.

The ladies of Paducah as soon as it was announced that the unfortunate family was here, began sending in food fuel, and clothing until the whole family is now well supplied.

In addition three of the girls, who are almost grown, have secured work, one with City Jailor Tom Evitts, another at the Cordage factory and another at one of the South Side mills.

The family's jump from the most abject poverty to comparative comfort and prosperity was within a few days, and the relief of their sufferings is a great credit to the police and charitable ladies of Paducah.

Frank Cowan, the head of the family, is still at large, wanted for murder.

M'KINLEY ASSOCIATION.

\$100,000 MORE WILL BE COLLECTED FOR THE FUND.

Cleveland, O., Feb. 16.—The McKinley National Memorial association has issued a statement to the effect that it has collected more than \$500,000 during the first year of its organization. The association announces that it will be necessary to collect something more than \$100,000 additional before anything will be done toward building the monument.

The trustees have decided to undertake the collection of this additional sum through the postoffice and department stores of the country by placing in their hands a supply of souvenir certificate, to be given to all contributors of \$1 or more. These certificates will ultimately go to all the contributors. In large cities, where comparatively few people visit the postoffice, these certificates will be sent to department stores for distribution, thus giving those who have not already contributed to the fund an opportunity to do so.

IF STREET IS WIDE ENOUGH IT MAY BE BUILT.

The joint telegraph, railroad and telephone committee of the general council decided at its adjourned meeting Saturday afternoon to have the city engineer make a survey of Myers street, and if found wide enough to allow a track to be built down it, to permit the Illinois Central to build the spur into the manufacturing district. If the street is not wide enough the track will probably be built on land ceded by the Seacrest Mining company.

The Man In Charge

On the first and third Tuesdays of each month the Burlington sells homeseekers' tickets to the territory East of the Rockies at one fare plus \$2.00 round trip. On the same dates one-way settlers' tickets to the same region are sold at a trifle more than half rates.

The Burlington best reaches the corn belt, the wheat belt, the livestock areas of the Louisiana Purchase, and, in connection with the Northern Pacific and Great Northern Railroads, forms direct routes to the upper Northwest country through St. Louis or Chicago.

The generous harvest of 1902 in the West is a strong appeal to homeseekers and investors to see the rewards now being gained by farmers, stock raisers and fruit growers, not only in the regions of natural rainfall, but in the spreading irrigated districts of Eastern Colorado, Northwest Nebraska, the North Platte and Big Horn Valleys of Wyoming, also of Idaho, Montana and Washington.

Send for any of our special land publications, all free—"Nebraska," "Black Hills Mining," "North Platte Valley," "Big Horn Basin," "West Nebraska Grazing Country," "The Corn Belt," also of Minnesota, the Dakotas, or the Northwest.

The Sun's Trade Edition

Comments of Prominent Citizens on The Sun's Trade Edition
Public Appreciation of Our Enterprising Project
to Advance the City of Paducah.

The publication of the Paducah Daily Sun's Trade Edition has met with universal approval from all parts of the city and surrounding country as being one of the best and most highly appreciated editions ever issued in behalf of our progressive city. The Sun went to considerable expense to make it the great success it proved to be. Some of our most prominent manufacturers and bankers expressed their opinion of the big undertaking as follows:

MR. V. J. BLOW,

The largest stove manufacturer in the world, said:

"Your Trade Edition is indeed a great credit, not only to Paducah but to Western Kentucky. I rejoice in The Sun's public spirit and enterprise."

J. W. LITTLE,

Manufacturer of spokes, said:
"The undertaking was most praiseworthy, and I congratulate you upon its highly successful issue. I hear of The Sun's Trade Review, nothing but appreciative comment."

GEO. LANGSTAFF,

Of the Langstaff-Orme Manufacturing Co.:

"The Sun exhibits the right spirit in directing popular attention to our city. An edition of this kind is what Paducah needs, and I am glad to see it so generally supported."

EDGAR W. WHITEMORE,

Paducah's leading real estate dealer:

"The Sun is certainly doing its utmost to advance Paducah to the front. The edition is creditable in every respect and is both interesting and beneficial."

JOS. L. FRIEDMAN,

Of Friedman, Keller & Co.:

"The edition deserves credit and it will attract outside capital to our city. Our city needs advertising."

H. A. ROSE,

Of the Rose Lumber Co.:

"The Sun's edition was very attractive and it will attract attention from all parts of the country. Keep up the good work."

CAPT. JOE FOWLER:

"The Trade Edition was a great success. We need all the publicity that we can get. The work will eventually bring results to Paducah. The people should be more public spirited and progressive."

MR. R. RUDY,

Of the Citizens' Savings bank:

"The object of advertising a city is to get investors interested and later become residents of our city, which increases more money and business for Paducah."

PRESIDENT GEO. THOMPSON,
Of the American German National bank:

"The newspapers can do more to boom a city and can accomplish the result if they try. I feel proud of The Sun's good work. It was a handsome edition and will show what our banks are doing."

PADUCAH FURNITURE MFG CO.
Mr. L. P. Jan's said:

"It was the best special issue ever published in our city and proves to outsiders what we are doing and can do, as we have everything in our favor for a great city."

A. L. LASSITER,

Our famous architect, said:
"The Sun's estimate of Paducah, as stated in its Trade Review is in every way correct. The review was an enterprising project, most capably conducted, and I am glad to witness its success."

W. B. SMITH,

Vice president of Globe Bank and Trust Co.:

"The Sun has fully demonstrated the fact that it is an up-to-date newspaper, and in newsgetting, equipment and reliability is all a public could desire. The Trade Review reflects credit on The Sun's management, and fully shows who are the public-spirited citizens and who are the millstones. I am glad to be classed among the former."

POSTMASTER FRANK M. FISHER:

"I consider The Sun's Trade Review most entertaining and handsome. Our people are willing to do their share toward building up Paducah, and a lively newspaper is an effective mouthpiece."

E. W. PRATT,

Of Pratt Coal Co.:

"The Trade Review is all right—all right. Mighty well gotten up and handsome."

MR. E. W. SMITH,

President of Smith & Scott Tobacco Co.:

"The Sun is to be congratulated upon its handsome Trade edition. It was a big success."

CHARLES REED,

Of Palmer house:

"I am glad the edition was a great success. We need all the publicity we can get. We need more progress to keep the city to the front."

GROWS SMALLER

EVERY YEAR THERE IS A MARKED DECREASE IN VALENTINES SENT HERE.

The employees of the postoffice state that the number of valentines they handle grows smaller every year. Some of these men have worked in the Paducah office for many years, and state that the decrease during the past few years has been very perceptible, despite the increase in the size of the city and the growth in population and mail. The only reason they can assign is that the custom of sending valentines is being abandoned.

FEW EXPORTS

VERY LITTLE WHISKEY TO BE SENT AWAY.

There will be little whiskey exported this year, according to Louisville distillers. One is quoted as having said:

"Up to date there has been little or no goods sent from this country to European markets, and I see no prospects for any change of conditions."

"The whiskey usually sent to foreign markets is about seven or eight years old, but the local dealers find themselves with a very small supply of whiskey of this age. The product of '95 and '96 was very small, and as a result the whiskey desirable for exporting is not to be obtained in large quantities. Furthermore, there is a strong demand for whiskeys in the local market; in fact, the demand is so great that the dealers can only with difficulty supply it."

"The condition existing now is an unusual one, for Kentucky has heretofore furnished a large amount of the export whiskeys. Last year as much as 14,000 barrels of whiskey were exported, and of this amount Louisville furnished a large per cent. The existing state of affairs will probably remain unchanged for two or three years, after which time the export trade will begin to pick up."

TRAGIC FATE.

PRIEST COULD NOT SEE HIS SWEETHEART ANOTHERS'.

Paris, Feb. 16—Zola would have found ample material for a novel in the romantic story which recently took place near Toulouse.

Some time ago the priest, Vales, a handsome man, was appointed cure of the little village of Carhouse.

He lived with two old maiden aunts and his grandmother. One morning it was discovered that the young priest and a girl of 18 had disappeared.

Everywhere vain searches were made. At last the priest had climbed up to the belfry, where he found the body of the girl by the side of that of the girl.

A revolver lay between them. Medical evidence proved that the priest had shot the girl and then committed suicide.

A letter was found in the priest's pocket stating that he had mistaken his vocation.

He preferred death to sullying the purity of the girl he loved, but he could not brook the thought that she should ever belong to another.

MODERN CRUSOE.

THIS MAN LIVED IN A CAVE TO ESCAPE DETECTION.

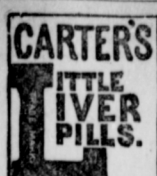

Knoxville, Tenn., Feb. 16—George Tipton of Ruralville, Tenn., was arrested on the charge of murder after being hunted for nearly a year by officers of the law. Tipton and Horace Smallin ambushed and killed Moses Koller of Knoxville last May in Monroe county. Koller was shot for the purpose of robbery, but his horses took fright and ran away, hauling the dead body, which remained in the wagon, out of reach of the robbers. Smallin was captured soon after the crime and jailed, but Tipton escaped. Ever since the tragedy he has lived in a cave under his father's house, where he was found today by Deputy United States Marshal H. C. Hart and posse. There was a reward of \$250 for Tipton, \$300 of which was offered by Gov. McMillin.

HEINRICH CONRAD ELECTED DIRECTOR OF THE METROPOLITAN OPERA HOUSE.

New York, Feb. 16—The "millionaire horse show" at the Metropolitan opera house and the clientele in other parts of the house, who pay a total of nearly \$1,000,000 annually into the box office to hear grand opera, can rest assured that there is to be, after all, an opera season next winter, says the Herald. At a meeting of the Metropolitan directors it was decided to give a five years' contract for the operation of the house to Mr. Heinrich Conrad, manager of the Irving Place theater.

Makes a Queer Pedigree.

A headline writer on the News asserts that Nicholas Fish, who died from the effect of injuries received in a drunken brawl, "was the son of Grant's secretary of state and of Gotham's 400." This is a pedigree quite as remarkable as that of the Taylor pup in Eugene Field's ballad, which was "sired of such a noble sire and damned by every one."—Detroit Free Press.

Skittles and Customs Authorities.

She Is Cured—Enjoying the Best of Health

After Years of Heart Disease.

Dr. Miles' Heart Cure Cured Her.

"Five years ago my wife was a constant sufferer from weak heart and fainting spells that would cause her heart to flutter violently, leaving her in a very weak condition. She was extremely nervous, had little appetite, could not sleep well and was unable to do her household duties. She began the use of Dr. Miles' New Heart Cure, and after the first bottle felt great relief. She has now used five bottles and I can say she is cured and enjoying the best of health. She goes out a great deal, does all her own work and she thinks all the credit belongs to Dr. Miles' Heart Cure, and we take pleasure in giving you this testimonial hoping it will be of benefit to others. I will add that I used the Restorative Nervine this spring as a spring tonic and it made a new man of me."—S. C. STAPLETON, Greenville, Texas.

The heart when exhausted relaxes just as does any weakened or exhausted muscle, causing the circulation to wholly or partially cease, when the person becomes weak, or perhaps faint. Should the relaxation continue for a minute or two sudden death is the consequence. If you are weak, if it flutters, palpitates, tires easily, you should immediately begin the use of Dr. Miles' Heart Cure. This great blood and heart tonic has been uniformly successful in the treatment of heart disease. It enriches the blood, strengthens the heart, nerves, regulates the pulse and improves the circulation.

THE WEATHER.

Cold wave for Kentucky. The temperature will fall rapidly until a point near zero is reached Tuesday.

THE SUN'S CIRCULATION.

It is a rare thing that The Sun does any bragging about its "doings" but it is feeling so good over the way its circulation is growing, and has grown since fall, that it needs must say something about it.

The circulation of The Sun at present is over 2,200 copies a day.

Fifty hundred and sixty of these go out in the city by The Sun's regular subscribers, 75 of them go to Brookport and Metropolis, 139 go out on the rural routes and the balance go out by mail to regular subscribers and advertisers and exchanges.

This is a circulation The Sun feels proud of. However it won't stop at these figures. The circulation is increasing with each day, and the bustling work that is doing it will be continued.

Advertisers can rest assured when they place an ad in The Sun that they can tell just how many people will see it. They can also rest assured that they can not get the same amount of circulation for their publicity that The Sun gives at the price The Sun makes.

It is a recognized fact among the leading merchants of the country that advertising is the motive power to business in this age—that it is absolutely essential. The Wanamakers, the Marshall Field's, the leaders in every city in mercantile lines, attribute their success to the money spent in advertising. The Paducah merchants also appreciate the fact that advertising is the one thing that will play the most important part in the business of the future.

The point to this recital is: Advertise, and use The Sun when you advertise. No one in this day should have to be told to advertise, for advertising is the motive power to present day business, and is becoming more forceful—more essential each day. However one should know what mediums to use. In Paducah The Sun is unmistakably one.

Those who go to London as a tribunal to settle the Alaskan boundary dispute are Secretary of War Root, Senator Henry Cabot Lodge and George Turner, all among the foremost men of America today. When the treaty was first submitted to the senate it provided for the appointment as members of the tribunal to fix the boundary line of a high court of judicature, which is the usual form in the treaty phraseology of Great Britain. At the suggestion of members of the committee on foreign relations, the language was changed so that "impartial jurists of repute" could be appointed, and it is under this characterization that Messrs. Root, Lodge and Turner have

been chosen. They will have the selection of an agent, who shall act as their counsel, and the case of the United States must be presented to the tribunal within two months after the exchange of treaty ratifications. The work of the tribunal will take its members to London for several months during the coming spring and summer. The compensation of the jurists and their agent and clerks is to be fixed hereafter by a joint committee. There are no more intelligent, fair and able men in the public service than those mentioned, and that they will satisfactorily represent the greatest country in the world goes without saying.

The success of the first year of the McKinley memorial fund amply attests the universal esteem in which our late president was held. Over \$500,000 was donated to the fund during the first year of the organization, and an effort is to be made to collect \$100,000 more. There should be encountered no difficulty in collecting many times that amount. The new plan is to secure the \$100,000 in \$1 subscriptions, souvenir certificates to be issued to each donor. The certificates will be distributed through the postoffices and department stores.

In Glasgow a man is sober so long as he can say "Shoes and socks shock Susan," says the Louisville Herald. In London he is not drunk while he can utter distinctly "Truly rural," while in Chicago he is adjudged sober so long as he can lie on the floor without holding on. In Louisville he is sober till he shoots. Other towns are yet to be heard from.

Our Metropolitan contemporary on Fourth street printed the facts that The Sun received from General Manager J. F. Wallace, of the Illinois Central, in a special dispatch several days ago, in Sunday's issue, and credited it to a Memphis paper. Sometimes our slow coach contemporary has to go a long way from home to get news from home.

The Kentucky court of appeals has just rendered a decision compelling one of our coming metropolises to put hitching posts about the court house square for the benefit of our country cousin. We trust no one in Paducah will take up the matter in the courts of forcing the city to provide additional conveniences for the town cow.

Four years ago Paducah was in the throes of a great blizzard. On February 13, the temperature, we find from the files, was 12 degrees below zero. Four years ago we also had a coal famine, and yesterday was the anniversary of the confiscation of a barge containing 15,000 bushels of coal by Mayor Lang.

Most any of us could have offered to pay that \$350,000 for Venezuela if we had known our kind offer would be rejected. If Mr. Carnegie really wants to pay it, however, we are of the opinion that Venezuela will have no serious objection to it.

When we get our bloodhounds it will indeed be a daring thief who will raid chicken roosts or rob a house. He is likely to wake up with a bloodhound nosing about his virtuous couch and have to go to jail on suspicion.

Chicago is having a hot fight over the technical construction of a statute under which a street railway franchise was granted in 1865. We really didn't think they were that slow in Chicago.

About the only sensible thing the late W. J. Bryan has done lately was to decide positively that he would not be defeated for president again.

The usual flood talk is already heard on the streets, but there's plenty of time yet to get our rubber boots and sailboats.

They haven't yet begun running trains yet over the "cut-off" that has so tickled our neighbors in Mayfield.

PROSPECTS OF FLOOD

The Rain Seems to Have Been General.

River Over the Danger Line Here and Still Rising, But No Big Flood Is Probable.

TOBACCO BEING MOVED TODAY

The outlook for a flood at Paducah has changed very much since Saturday. Some of the older rivermen now predict that there will be a very high stage of water, even if there is no overflow such as we have had once or twice in the history of the city.

The danger line was passed yesterday, and the gauge is now nearly a foot over it, with the river still rising.

The Mississippi is rising, which backs up the water at Cairo and prevents it from running out of the Ohio rapidly, and reports from above indicate that the Ohio, Tennessee and Cumberland are rising at present.

How long this will continue cannot be predicted, but it is believed that the cold weather will stop the rise and allow some of the water to run out before the snow and ice melt and let another large volume into the Ohio.

The rainfall here has been about three inches since Saturday, and it is understood the rain was general. The high stage of water is causing great inconvenience and suffering. Much corn and stock have to be moved from the lowlands by the farmers along the river banks, and in the city the effect is also keenly felt. It is now a very difficult matter to load the boats at the wharf on account of the lack of space.

Many of the smaller landings along the river bank are so badly submerged that the packets cannot land, which occasions great loss to steamboat owners in both passenger and freight business.

This morning the Western District Warehouse Co. has a large force of men at work moving 300 hogheads of tobacco from their warehouses at First and Jefferson streets, and it is thought that it will all be safely out before the river reaches it. It was not moved before because it was not believed that it would be necessary. Last night, however, it became evident that there is considerably more water to come, and men were at once put to work taking out the tobacco.

The rise here since Saturday has been a foot and a half, which is a very heavy rise for this stage of water. Owing to the fact that the river is out of its banks the water spreads over a vast area, and it requires a great deal of it to make a foot rise.

Conservative rivermen do not seem to think there will be anything like an '84 flood, but they seem to expect considerably more water.

WEATHER BULLETIN.

St. Joseph, Mo., Feb. 16.—Last bulletin gave forecasts of disturbance to cross continent February 16 to 20, warm wave 15 to 17, cool wave 18 to 22.

Next disturbance will reach Pacific coast about February 22, cross west of Rockies by close of 23, great central valleys 24 to 26, eastern states 27.

I expect this to be a radical disturbance of large dimension and that it will pass along mid-latitudes affecting all of the North American continent. The temperature will go high about the time this storm center is on your meridian but the high temperature will be of short duration. The threatening day will be on meridian 90 about February 25 and will be of that peculiar kind that usually precedes a blizzard.

The term "threatening" which I use often may need some further explanations. If the storm center passes north of you it will cause hot weather and the cool wave following will not go to very low temperatures. If it passes south of you the warm wave will not go to very high degrees while the cool wave will go to lower temperatures than usual. If the storm center passes over you the warm wave will be very warm and the cool wave very cool.

Warm wave will cross west of Rockies about February 22, great central valleys 24, eastern states 26. Cool wave will cross west of Rockies about February 25, great central valleys 27, eastern states 29.

Mrs. Lottie Barnham, of South Ninth street, who has been threatened with pneumonia, is better today.

THE POPE'S JUBILEE

Catholic Churches all Over the Country Celebrate Friday.

There Will Be High Mass at 8 O'clock and Other Appropriate Ceremonies.

OTHER CHURCH NEWS

The jubilee of Pope Leo will be celebrated by Catholics all over the country next Friday, and every church will appropriately observe the occasion. High mass will be celebrated at 8 o'clock that morning in every church in the country.

The Rt. Rev. William George McCloskey, Catholic bishop of Louisville, has issued a pastoral letter which was read in all the churches in the diocese yesterday calling attention to the observance of the jubilee of Pope Leo XIII.

Besides the religious exercises the bishop urges members of the various congregations to hold other appropriate celebrations in honor of the holy father's consecration as pope.

The 25th anniversary of the election of Pope Leo will be on February 20, and on that day a solemn votive mass will be celebrated at each of the churches in the diocese. At this mass the bishop recommends that prayers be offered up by the faithful that the life of the venerable pontiff be spared many years to come.

March 3 is the anniversary day on which the pope was consecrated and this event will be celebrated in the manner to be decided upon by the pastors and people of the several congregations.

Rev. J. C. Reid made a short talk at the Y. M. C. A. yesterday afternoon to a small crowd. His subject for yesterday's address was "His Fatal Mistake" but he did not take this subject and instead made a few remarks preparatory to going into his address.

Regular services were held in the churches yesterday, and the congregations were fairly large for the weathered day. Excellent sermons were delivered by the various ministers.

In the absence of Dr. W. E. Cave, a song and prayer service only was held at the First Presbyterian church.

The Ministerial association held a short meeting this morning with little business. The inclement weather prevented a large attendance. Nothing of importance was done.

POLICE COURT.

Very Few Cases on the Docket This Morning.

Case Against Steamboat Mate Was Continued Until Next Monday.

The weather seems to have had a perceptible effect on Judge Sanders' court, as the docket was unusually small today for Monday morning.

The case against Ed Martin, mate on the Battorff, for striking a colored teamster, was partially heard and most of the evidence corroborates the mate, who did not strike the negro until the latter drew a whip. Judge Sanders left the case open until next Monday and warrants for false swearing may be issued.

Ostorne Drake, who beat up a woman about 18 months ago and thought the officers had forgotten about it when he came back recently, was fined \$30 and costs.

George Hammon, who works for Master Commissioner Gip Hushands, was fined \$25 and costs and given 10 days in jail for carrying a pistol concealed.

John Haffey was fined \$1 for a plain drunk.

Ben and Will Vinegar and J. D. Beach, for disorderly conduct in getting coal from a railroad yard, were given 20 days on the streets.

Dee Byard was given 30 days on the streets for vagrancy.

Joe Lang was dismissed on a charge of drunkenness.

Prefer Boats to Houses.
Carracross, on the west coast of Ireland, is composed entirely of boats. There are large stone quarries nearby, but the inhabitants stoutly decline to have a proper house, on the ground that an inverted fishing-boat is more comfortable.

IN THE NAME OF PHILANTHROPY

By O'Ryan O'Bryan

Copyright, 1932, by the S. S. McClure Company

The Dawsons were double cousins—first in days of calm, but second when storms swept over the land—girls, fourteen years old apiece, bright, fiercely energetic and up to date.

They owned two adjoining ancestral places well furnished with fathers and mothers, and from cellars to attics, particularly the attics, with chairs and things, and with servants to dust the chairs and things. They owned also one grandmother in common besides two or three others in severality.

Said their mothers, whom grandmother-in-common's illness called away, "How fortunate that school is in session; otherwise the girls might be lonely," a maternal euphemism resulting from long years of practice.

The term closed, however, without the mothers' presence to soften the blow. Grandmother-in-common's illness necessitated a longer leave of absence, which was granted in a characteristic message: "We're all right, little mothers. Stay as long as you please. Love to gram."

This was endorsed by the Fathers Dawson.

That was what the Fathers Dawson were for—to endorse. Although much absorbed in trying to double the output of the foundry without increasing the expenses, they still reserved the veto power at home. But the possibility of the overruling two-thirds vote led them to preserve the show of authority by endorsing, always and speedily.

The mothers were becoming uneasy. The daughters were becoming uneasy too. Usually when these restless girls came on the girls were dutifully guided into the paths of philanthropy. "Great executive ability" their mothers said they had, and indeed they could dress dolls or make scrapbooks for children's hospitals if necessary, but they just doted on sales.

When a sale was announced, their subordinates drew a long breath. The mothers fell to work with a will, echoing the remark of Rosa, the cook: "Now we know where we're at. I can stan' on my feet all day makin' canny, an' I doesn' complain, but it's dese yere surprisins dat gibs me de misery in my maid."

The restlessness now worked itself into a fever, and as it reached its height simultaneously in both girls they started on a run from their respective homes and met under the Linden tree on the boundary of their ancestral lawns.

In breathless duet they exclaimed, "Oh, Susannah, I have an idea!" "Oh, Hepsibah, I have an idea!"

Their names were neither Susannah (always spelled with an "h") nor Hepsibah. Their mothers in youthful ignorance of what good form would demand in a name later had called them Nellie and Gracie. The girls early came to despise these weakly cognomens, and when some Harvard authority in a proud spasm of reform changed their Uncle Harry's name to Henry without so much as saying by your leave they promptly said, "We'll change ours." Susannah and Hepsibah they became to each other from that moment. The fathers and mothers at first stoutly resisted, but might prevailed. The general public now knew no others.

"We'll have a sale—a 'fresh air' sale."

Then the embryo "lady board" put their heads together and gave their executive ability full play.

At night the Fathers Dawson's indorsement was called for. "A sale? Certainly." What a relief!

When the girls' signal lights greeted each other from their windows, each Father Dawson started for the telephone.

"My dear," said Susannah's father, "rest easy. A sale is on. They are quite capable of managing the Pan-American, you know, and they can this. The servants, both men and maid, must by this time be better perfect."

When his turn came, Hepsibah's father said much the same thing.

The mothers embraced each other fervently. "The little dears," they said and slept the sleep of the unworried.

This was Friday. The sale was set for the next Wednesday. Grandmother-in-common was now recovering rapidly.

Tuesday night the mothers said to each other, "We're homesick."

"Wouldn't a surprise be fun?"

"Let's go home. I should enjoy a sale when we haven't worked to get ready for it."

"We won't even telephone for the carriage. The girls will need all the help they can have."

This was true. A sale without the two faithful henchwomen called for manual labor as well as executive ability.

Thus it was that the waning Wednesday afternoon found the two mothers hurrying on foot up the street from the station.

"Look at all the people coming down the street," remarked Susannah's mother. "There must be a circus in town."

friend, and with smiling faces they stopped to greet her. To their astonishment, she only gave a vicious little frown to an out of date orange colored workbag hanging from her arm and walked by with averted face.

Not far behind her was another acquaintance from whom they received only a cold nod.

"What in the world! Do they think mother had the smallpox, or have the Dawsons failed, or what is the matter?"

"Oh, look at that woman! I do believe she has Grandfather Dawson's white bell hat. I know there isn't another in town."

"And that one with the silk waist hanging out of a water pitcher! There must have been a rummage sale."

The horrible truth flashed upon both at the same instant.

"My old rose waist!" gasped Susannah's mother.

"My Grandmother Pelham water pitcher!" moaned Hepsibah's mother.

There was no question now. Every one past whom their hurrying steps led them bore some half forgotten treasure seen only at housecleaning time.

They were women of fine sentiment, never willing to destroy anything about which fond memories could twine, and their large ancestral attics were filled to overflowing with what Rosa significantly called "heaps of plunder," the accumulations of several generations of Dawsons, Pelhams and Gwyners and the ragpiles of many Christmas harvests.

They rushed on, growing more and more sick at heart as they met here and there among the throng friends who dwelt within the circle of Christmas giving. When they reached the lawn, out of the tumult of their souls rose a bubble of pride that, awful as it was, the girls had displayed their usual executive ability.

Under the Linden tree sat Hepsibah, the cashier, with a goodly pile of money before her. Patrolling the grounds and keeping an eye on each grinning negro in charge of the heaps of goods, which had been carefully assorted, classified and grouped around the trees, walked Susannah, the general manager.

The mothers had been too long under the yoke to make a scene, but as they walked from one ancestral tree to another and read the gorgeous placards tacked to the trunks their emotions were many and deep.

"Shoemakers' tools used by Grandfather Dawson."

"Infant wardrobe of the Gwyners branch," mostly rags.

"Great-grandmother Pelham's wedding dishes," a most respectable collection of pans and crockery ware.

"Great bargains in Christmas presents. Good as new; some never used."

At this finishing stroke the Mothers Dawson fled each to her own house and wept behind closed blinds. "They will never forgive us!" they sobbed. "No wonder Mrs. Gaines didn't speak!"

A sudden shower put an end to the sale. A little uneasy in their souls, the girls went in to report results. When the interviews were over, it was not the Mothers Dawson who came out with drooping heads. On the contrary, these emaciated ladies sped down the lawns and shook hands in solemn compact under the Linden tree.

Said Susannah's mother, "Hereafter I am to be boss of my own ranch."

"Same here," said Hepsibah's mother.

Then a blush of shame spread over their faces that even in this their hour of independence their speech should betray their daughters' influence.

"I mean that from this time forth I shall control the affairs of my own household."

"And I mean that the same conclusion has been reached by me."

They have a hard job before them.

How He Kept Informed on Clocks.

A sad more or less general is the collecting of old clocks, from the tall grandfather variety to the curious timekeepers of foreign make. The garrets of old farmhouses from Maine to the Carolinas have been ransacked for the former, and there is many a man and woman in New York who keeps an eye on the pawnshops of the foreign districts for curious and ancient things from abroad.

"It is almost impossible to keep them all running," complained a woman who has two dozen aged and valuable clocks scattered through her Madison avenue home. "They seem to be in good order and run along for awhile, then all of a sudden they stop for no reason at all."

"I have found an old German who knows more about the ways of old clocks than any one in the city. I sent him my German prize a few weeks ago, and when it did not come back after the usual period of waiting I went to his shop. What do you think I found him reading?"

The friend did not have the slightest idea.

"It was a little German volume with a title something like this: 'Thirteen Hundred Reasons Why a Clock In Perfect Order Won't Run.'—New York Tribune.

The Churchy Handmaiden.

Mr. Edwards and Mr. Wells, wardens of a prominent city church, were not in accord concerning the new rector's introduction of extreme ritual into the service.

Mr. Edwards was aggressively on the rector's side, Mr. Wells quite the reverse, and on one occasion their difference of opinion cropped out in a lively though brief dialogue which incidentally suggests the possibilities for expansion of the servant problem.

Mr. Edwards, having exhausted his arguments on his unresponsive brother warden, said:

"At least you will own that art is the handmaiden of religion."

"Yes," returned Mr. Wells savagely, "and I wish religion would give her a month's notice!"

TO SEE THE WORLD

TWO BOYS REPORTED TO HAVE GONE AS FAR AS METROPOLIS.

Willie Zeiss, who keeps office for Dr. Pendley, and Owen Batts, who keeps office for Dr. Winston, ran off Saturday night to see the world, but will probably be somewhat discouraged by the weather selected in which to make a start, and are expected home today.

The boys left Paducah Saturday night and were not heard from until yesterday, when they were located in Metropolis. Mr. William Batts, formerly assistant superintendent of the street railway company, is the father of the latter youth and will have the police in Metropolis arrest his boy if he is still in that city. The Zeiss youth lived with Dr. Pendley.

NEW TICKET AGENT.

MR. MANION OFFERED AGENT SHEPHERD'S JOB.

Mr. O. G. Shepherd, who has been day ticket agent for the I. C. here, will leave tonight with his wife and child for Central City to take charge of the railroad agency there. Mr. John Manion, the night ticket agent here, has been appointed to succeed Mr. Shepherd here as day man, but will probably decline, as he prefers the night watch. No successor has been appointed yet.

CIRCUIT COURT

VERY LITTLE OF INTEREST AT TODAY'S SESSION.

The trial of the Hellman Machine Works against Ogilvie & Wiley suit was taken up again this morning, and the conclusion will not come probably before tomorrow. The remainder of the evidence is being heard today and the lawyers will probably consume several hours in speaking. This case has been on trial for several days.

The case of Mrs. Loretta Tully, executrix, and others against the Mutual Life Insurance Co. has been set for trial next Monday.

The appealed case of Lee Walters against J. W. Liles was dismissed.

John Dipple, F. F. Gholson and E. L. Napce were excused as petit jurors and John Householder, W. T. Houser and W. W. Walker substituted.

A suit was this afternoon filed by Fannie Kilcoyne, admx., against Julia Davitt and others, for settlement.

KILLING IN ILLINOIS.

NEGRO SHOT BACK OF BROOKPORT SATURDAY.

The police were this afternoon notified that Dave Hopson, a young negro living back of Brookport, was shot and killed in a quarrel with his brother Saturday night, but no particulars were received.

He is a brother to Ella Hopson, colored, who escaped from jail here several weeks since and caused Jailer Jones so much trouble.

NEW PAPER IN BENTON

MR. J. H. FORD PREPARING TO START A REPUBLICAN WEEKLY.

Mr. J. Hardin Ford, one of the best known attorneys in this section, and postmaster at Benton, Marshall county, is contemplating starting a Republican weekly paper at Benton, and has been writing prominent Republicans of the district who are likely to take an interest in the project, and is meeting with reasonable success.

Mr. Ford is a bright, popular man, and formerly practiced law in Paducah. He has many friends among all classes, and if he starts his paper, which it is believed he will, it is predicted that it will be a success. Mr. Ford is just the man to make it so, and will have the support and good wishes of all good Republicans in the district.

BLOODHOUNDS DUE.

THEY WERE EXPECTED IN THE CITY LAST NIGHT BUT HAVE NOT ARRIVED.

City Jailor Tom Evitts has not yet received his bloodhounds, which were shipped from Texas last Wednesday or Thursday. He supposes they are somewhere between Paducah and St. Louis, and has been looking for them since yesterday morning.

They will be kept in a place prepared for them back of the city hall, and are guaranteed to take a trail within 8 hours if it has not been destroyed. Chief of Police Collins suggests that whenever it is desired to use them, people remain away from the scene of a crime, in order that the scent will not be destroyed.

SUSPICIOUS CASES.

BUT IT IS NOT THOUGHT THEY ARE SMALLPOX.

There are three new cases of sickness in the Tyler neighborhood, but none has been pronounced smallpox. One patient has slight symptoms of this disease, but not enough to pronounce smallpox. The health authorities have a man employed to watch that neighborhood and see that the quarantine laws are strictly adhered to and also to report all illness to the health authorities as soon as developed. An investigation of the recent cases will be made this afternoon and a thorough diagnosis made.

Copper Stock

The Majestic Copper Mining and Smelting Co.

in Beaver County, Utah, has ore lying on its dumps worth between \$1,500,000 and \$2,000,000 and seven million dollars more all ready for mining—ore blocked out or in sight.

These are simple facts easily determined. The entire capitalization of this Company, which owns eight groups of mines, namely: Hoosier Boy, Vicksburg, Harrington-Hickory, Old Hickory, O. K., Larkspur, Copperfield and Treasure Groups—wonderfully rich in Copper, Gold, Silver, Lead, Iron and Zinc, is but \$6,000,000. The mines are estimated by the leading mining experts to be worth many times the capitalization, and still the Majestic Company is selling some of its treasury stock at a price, \$7.50 (par value \$10.00), which will quickly raise the necessary money to complete its development work and make the last payment on its 350 ton smelting plant. This plant will be in running order in a few weeks. Thirteen carloads of copper ore from these mines worked up in Chicago showed 48 per cent copper, and every ton of \$1,000,000 worth already marketed gave enough gold and silver to pay for putting smelted copper on the market free of cost. Company's own railroad tracks out to mines and smelter. Only enough more to sell to meet last payment on smelter plant, balance three-quarter million to be held for much higher prices. Stock will be listed on exchange in a short time, and will pay a fine dividend this year.

Once the smelters are running the "Majestic" will be absolutely independent, as it owns outright all of its wonderfully rich property.

The price of stock will be advanced in February and only persons writing at once will be able to secure stock at the present figure.

We will mail free handsome 44 page illustrated book, "Above and Below the Surface," which fully describes this great group of mines. Every statement we make is literally and exactly true, and may be verified by a visit to the mines with one of our parties of investors. Private car with every convenience leaves in a few days. Send in reservation now and pay for the stock when proof positive regarding its value is given you. Letters and telegrams will have immediate attention.

CANCER CURED.

Mr. W. W. Prickett, Smithfield, Ill.,
writes, September 10, 1901: "I had
been suffering several years with a
cancer on my face, which gave me
great annoyance and unbearable itch-
ing. I was using Ballard's Snow Lin-
iment for a sore leg, and through an
accident, I rubbed some of the lin-
iment on the cancer, and as it gave me
almost instant relief, I decided to con-
tinue to use the liniment on the can-
cer. In a short time the cancer came
out, my face healed up and there is
not the slightest scar left. I have im-
plicit faith in the merits of this prepa-
ration, and it cannot be too highly
recommended." 25c, 50c and \$1.

His Reason for Retirement.

The physician of Gov. George P.
McLean of Connecticut has advised
him that it would be exceedingly im-
politic for him to remain in public
life after the close of his present term,
and he has accordingly given out word
that he will not be a candidate for a
renomination. "I would run if I
could," he lately wrote to a friend,
"but the good Lord has ordered other-
wise, and I am content."

CURED CONSUMPTION.

Mrs. B. W. Evans, Clearwater,
Kan., writes: "My husband lay sick
for three months; the doctors stated
he had quick consumption. We pro-
cured a bottle of Ballard's Horehound
Syrup and it cured him. That was
six years ago, and since then we al-
ways kept a bottle in the house. We
cannot do without it. For coughs

CHEAP HOMES IN TEXAS AND ARKANSAS

Along the Cotton Belt route—land
that can be bought for \$2 to \$5 an
acre and up—cut-over timber ground
that makes good grazing land, fruit
range ten or eleven months of the
year, farming land for corn, wheat,
oats, cotton—some of it peculiarly
adapted to quick growth and early
maturity of fruits and vegetables, such
as peaches, pears, plums, strawberries,
tomatoes, potatoes, onions, cabbage,
melons—finding good markets in the
north at fancy prices, on account of ex-
cellence of quality and earlier maturi-
ty than in other sections. An ideal
place for the man of small means—
cheap fuel, cheap building material,
long growing seasons, short, mild
winters—a land of sunshine and plen-
ty. Let us send you literature descrip-
tive of this country.

LOW RATES TO CALIFORNIA.

Commencing February 15, and daily
until April 30, 1903, the Illinois Cen-
tral railroad company will sell one-
way second class colonists' tickets
from Paducah to San Francisco, Los
Angeles, San Diego and other points
in California taking same rate, and
also to Prescott and Phoenix, Arizona,
and intermediate points, for \$31.40.
Tourist sleeping cars on which these
tickets will be honored pass through
Paducah on train No. 103 at 3:42 a.
m. every Wednesday and Saturday,
running through to Los Angeles and
San Francisco. Stop-overs allowed in
California. For further information
apply to J. T. DONOVAN, Agent.

Another Pilgrim Monument.

There is to be one more monument
to the Pilgrims. The Massachusetts
legislature this year appropriated \$25,
000 for a monument on the outer point
of Cape Cod to commemorate the adop-
tion of the Pilgrim compact of govern-
ment. This was made contingent
upon the contribution of an equal
amount by the association on or be-
fore July 5, 1905. It is proposed to
erect a rugged obelisk 200 feet high,
placed upon an eminence on the outer
most point of Cape Cod, where all
passing at sea may see it.

MARDI GRAS, NEW ORLEANS.

On account of Mardi Gras, to be
held at New Orleans from February
18 to 24, the Illinois Central railroad
company will, on February 17 to 23,
inclusive, sell round-trip tickets from
Paducah at one fare, good returning
until February 28, subject to exten-
sion to a date not later than March 14
by deposit of ticket with special agent
not later than 8 p. m., February 28,
and upon payment of fee of 50 cents
additional. Stop-overs will be grant-
ed at certain points, providing passen-
gers reach New Orleans not later than
February 28. For further information
apply to J. T. DONOVAN, Agent.

To Destroy the Malarial Germ.

A remedy for malaria which is said
to be very efficacious, particularly
for those who cannot take quinine,
is a wineglass of the best port wine
upon which has been sprinkled as
much cayenne pepper as the patient
can stand. The preparation should
be taken twice a day.

LOW RATES WEST AND NORTHWEST.

Commencing February 15 and con-
tinuing daily until April 30, the Il-
linois Central railroad company will
sell one-way second class colonists'
tickets from Paducah to Billings, Hel-
ena, Missoula, Ogden, Salt Lake, Spo-
kane, Portland, Tacoma, Seattle and
intermediate points at extremely low
rates, with stop-over privileges west
of the first colonist point. For fur-
ther information apply to
J. T. DONOVAN, Agent,
Paducah, Ky.

WEAK AND LOW SPIRITED.

A Correspondent Thus Describes His
Experience.

"I can strongly recommend Herbine
as a medicine of remarkable efficacy
for indigestion, loss of appetite, sour
taste in the mouth, papitation, head-
ache, drowsiness after meals with dis-
tressing mental depressions and low
spirits. Herbine must be a unique
preparation for cases such as mine, for
a few doses entirely removed my com-
plaint. I wonder at people going on
suffering or spending their money on
worthless things, when Herbine is pro-
curable, and so cheap." 50c a bottle.

Could Explain the "Thrill."

"Ah!" sighed the dreamy poet,
"what peace, what restfulness there is
here in the placid solitudes, commu-
ning with nature. Do you not also find
that many things come to you un-
sought—that you consciously realize
that something has touched you su-
premely—that some invisible power
has thrilled you unspeakably?"
"Why, I don't know," answered the
young woman with a nervous start,
"but I did think I felt a mosquito a
minute ago."—Detroit Free Press.

Low Colonist Rates to the Northwest and California.

From February 15th until April 30th, the Burlington makes greatly reduced one-way rates for settlers going to California, Montana, Big Horn Basin, Idaho, Washington, Oregon, Puget Sound Country and British Columbia. Generally speaking the reduction is from 25 to 40 percent.

The Way to Go

Take the Burlington trains at St. Louis, Kansas City, St. Joseph, Omaha, Denver or Chicago. With its close connections, the Great Northern and Northern Pacific roads, and with its through train service the Burlington offers more to the settler than any other line or combination of lines into the Northwest.

The "Burlington Northern Pacific Express" is the great daily train with through chair cars, coaches and through tourist sleepers. This is the only through train into the Northwest jointly with the Northern Pacific Road.

To California

Join the Burlington's personally conducted California excursions in through tourist sleepers which are run on frequent dates each week via Denver, Scenic Colorado and Salt Lake City.

Main Traveled Road

One makes no mistake in calling for tickets over the Burlington for its 5000 miles of main traveled trunk lines leading practically to all the great cities and diverging points of the West.

Describe to us your proposed trip and let us advise you the least cost and send you free reading matter.

THROUGH COAL HOLE

Novel Method Employed by a Thief to Steal.

Went Through the Cellar into Mr. John Dicke's Saloon on Second Street.

LEFT NO CLUE TO WORK ON

The Senate saloon, owned by Mr. J. W. Dicke, was broken into Sunday morning some time between the hours of 2:30 and daylight and \$10, two quarts of whiskey and some cigars were stolen.

Mr. Dicke had the window blinds up so that the public could see in and left them so when he closed the saloon. Upon returning the blinds were pulled down and his cash drawer had been broken open. An ice pick and butcher knife were used and the burglar evidently was acquainted with the house and the customs of the proprietor, as he knew where the money was and where to procure the tools he used.

Entrance was effected through the coal hole on the pavement, and once inside the cellar all necessary to obtain entrance to the saloon was to lift a trap door. One dollar in nickels was overlooked, but the \$10 in change, which had been placed under a goblet, was taken. The police have been investigating, but no clue has been secured.

It is the first case, according to Chief of Police Collins, in which the thief gained entrance by lifting the grating and going down a coal hole.

NEW BOILERS

ILLINOIS CENTRAL SHOPS ARE NOW USING THEM.

Yesterday the new boilers at the railroad shops were fired and are being used today. The trimmings and connections were finished last week and the boilers put in condition for firing Saturday afternoon late.

There are two of the new boilers yet to be put in and while the shops are being run with the new boilers already in, the old boilers will be torn down.

BECKHAM WILL NOT SPEAK. Frankfort, Feb. 16—Gov. Beckham will not open his campaign at Mt. Sterling today, as announced. His opening speech will be made later and at some other point in the state.

Theatrical Notes.

A more worthy tribute could not possibly be extended to a worthy woman, than that which has been extended to Mrs. Brune by the mighty press of the country, when with one accord they have eulogistically proclaimed her the greatest dramatic find of the year, endowed by nature with mentality, youth, beauty and talent. She is beyond doubt today one of the greatest actresses speaking the English language. This woman not only possesses beauty and talent of rare vintage, but marvelously expressive voice and eyes, and real power. She throws her whole soul into her acting and comes as near giving a true representation of the weird character that is painted in prose by that creative genius, Marion Crawford, as could perhaps be done. All the while she impresses you that she has a wealth of reserve power that could be drawn upon at will. She gives you one instant the intensely active Indian witch; the next the gentle woman, tender and loving, indeed idolizing the object of her love. Jealousy, passion, nervous tension, love, hate, whole gamut of human emotion, this woman depicts, and gives it to you as your imagination has pictured it upon reading vivid word paintings.

PLEASANT REUNION

Dr. Smith's Children and Grand Children Meet.

There Are Many of Them—First Gathering in Five Years.

Dr. J. D. Smith, of Ninth and Jefferson streets, yesterday had a family reunion at which many of his children and grandchildren were present. Dr. Smith is one of the best known doctors in the city, and has been a resident of Paducah for many years, enjoying a wide acquaintance.

The gathering yesterday was a very pleasant one, some of the children coming many hundred miles to be present at the reunion.

Dr. and Mrs. Smith's children are: Dr. M. M. Smith, Whitesville, Tenn.; Prof. J. D. Smith, Jr., of Paducah; Ben Smith, Birmingham, Ala.; Dr. Julius Smith, Deport, Tex.; Wm. Thomas Smith, Lexington; J. Weightman Smith, San Francisco; Miss Bettie Smith, city. All the above were present except Dr. M. M. Smith, of Whitesville and Mr. Ben Smith, of Birmingham, who were detained by illness in the family. There are numerous grandchildren, Mr. Lothair Smith, of Louisville, being the only one present.

Among the many grandchildren are Lothair Smith, formerly of Paducah, but now of Louisville; Almonte Smith Arkansas; Amber Smith, Los Angeles, Cal.; Lebert Smith, U. S. army, and Misses Ester and Collie Smith, of Whitesville, Tenn.

This is the first family reunion in five years.

Flexibility of a "Dorothy Dodd"

EASY SOLES

IT IS SAID that the woman who goes to church with squeaky shoes goes to the right place, for her soles need attention. There is really a good deal about the sole of a woman's shoe that needs attention. You realize it if you stop to think how much you relieve the discomfort and "hardness" of shoes by making their soles flexible.

So far as I know (and I have taken pains to examine many different makes of shoes) the "Dorothy Dodd" is the one shoe for women that is really constructed with a flexible sole.

You can tell the difference as soon as a few steps have been taken. It means comfort. And a flexible sole, as rule, will out last any rigid sole—don't overlook that!

They Cost **\$3.00** *Dorothy Dodd*
